

## **Supplier Performance and Quality Management (SP&QM)**

Johnstone, K.  
Wintershall Dea AG, Well Construction Specialists, Hamburg, Germany

Suppliers and contractors contribute in a substantial manner to all Wintershall Dea activities. Therefore, it is essential to assure that all goods and services received are fit for purpose and meet predefined standards and expectations.

Supplier Performance and Quality Management covers the activities to ensure that suppliers deliver equipment and services according to contractual requirements and drive supplier performance towards excellence.

This presentation gives an overview about how supplier performance and quality is managed for well construction activities within Wintershall Dea. Among other aspects this includes non-conformity management, third party vendor inspection and performance management.
