Plenary Lecture

Geothermal energy: how to unleash global growth to sup- port a net-zero future?

Marit Brommer, Executive Director, IGA

Marit Brommer

Dr Marit Brommer is the Executive Director of the IGA since 2017 - Dr Brommer comes with a PhD in applied geophysics (TU Delft) and 15 years of experience in the oil and gas industry where she first gained operational experience as wellsite geologist and production technologist, followed by roles in seismic technology deployment. At the IGA she is focusing on creating strong partnerships with international operating organisations and industries. She is engaged in strategic initiatives regarding industry standards and sustainability, and focuses on financing geothermal projects as well as public outreach.
